or all who travelled on that stately craft.

Of course the usual rumors were soon in circulation—rumors which seem inseparable from actidents of this kind—namely, that the captain or the pliot, or both, were under the influence of liquor. This theory has been carefully traced, and there seems, to be no institution for it in fact. When the accident occurred the skipper was enjoying refreshment after his turn—on watch, but the moment the shock came he rushed up the stairs two steps at a time, and all agree that on the bridge, until the noble craft disappeared almost under his feet, he was cool, collected and deliberate in giving his orders—attributes never associated with a drunken man. The same may be said of the pilot. The reputations of both men in port do not justify the assumption. WILL MEET SIR THOMAS If He Arrives at Night There Will Be a

a passenger.

The finer may be delayed on account of the fog, but it she is on time, it is probable that the challenger will get away from her auchorage teeday. The steam yachi Priseilla, with a number of prominent New York yachtsmen on board, will also meet the Teaturing. It is proposed to give the barones a royal welcome. The plan is, it possible, to take Sir Thomas and his friends from the liner at quarrantne. Should the Tottonie not arrive until night, it fa protocchnic display for which a cartes blanche order has been given. day for the matter of that. We could not see the shore, and the boat that came picked up the men who were in the water and took us last. We were about the last ones to be taken ashore."

DR. DUNCAN'S DEATH.

He Stayed by Mrs. Ross-Morgan's Prompt Act.

A great deal of surprise is expressed that Dr. John Duncan, who was an athletic man, should have perished in the loss of the steamer. The last seen of him he was standing on the stern of the vessel with Mrs. Ross, and seemed to be taking no steps to save himself. It is quite likely that like others he had no idea that the ship would sink, and was remaining with the vessel in preference to taking charges in the water. He was also influenced by to taking chances in the water, it was also influenced in all probabilit, lergely by consideration for Mrs. Ros and her child. The latter would certain

ONE NEGRO HANGED AND TWO SHOT DEAD

KILLING FOLLOWED A MURDER IN MISSOURI

One of Victims of the Mob Is Believed to Be Innocent-Negroes Hiding in the Woods.

the conflicting stories from Pierce City bave been shifted, it develops that three negroes lost their lives there as a result of the murder of Gazella Wild,

The dead are Wilham Godley, hanged from the porch of the Lawrence hotel, and his body riddled with bullets; French Godley, grandfather of William Godley, shot in his own house; Pete Hampton, burned in his own house, but probably shot before the fire.

burned in his own house, but probably shot before the fire.

Eagene Barwet, also known as Cartee, in a confession while a rope was around his neck, accused Joe Lark, a San Francisco porter, of being implicated, in the crime. Lark was arrested to-day in this city. This afternoon he gave A detailed statement as to his whereabouty on Sunday, and he is believed to be not guilty. Some here think that Barret told any story to save his life.

The funeral of Miss Wild took place to-day and was witnessed by several thousand people.

Fierce City is near the junction of four divisions of the San Francisco line, and trains from all directions brought in large numbers of armed men, bent on bloodshed if necessary. When the moblast night went to the section of the city occupied by the negroes, some one in the cabins opened fire, but no one was hurt.

The much then destroyed the settle-

The mob then destroyed the settlement but the financial loss is not great. Reckless firing broke several plate glass windows and a train was fired into. The rifes taken from the Pierce City military company, it is expected, will be returned. Members of the company themselves were out hunting for the escaped negroes with rifles, and this suggested the idea of taking all the gams. The local hardware stores sold out their arm early; several applications from negroes were refused. The mob was composed of a thousand or more, and no masks were used.

composed of a thousand or more, and no masks were used.

Thirty negro families were driven from their houses. Many of the negroes who fled to the city are hiding in the surrounding woods, while others have gone greater distances, seeking safety.

It is now believed that Will Godley, who was lynched, was not the real culprit. Citizens say that negroes will not be permitted to live here in the future, and that the few negroes not already expelled will be obliged to go.

The cause of all the bloodshed was the killing of Miss Gazella Wild on Sunday afternoon, as she was return-

the killing of Miss Gazella Wild on Sunday afternoon, as she was returning to her home alone, her brother lingering behind. About one mile from town her brother found her with her throat cut, lying lifeless near a culvert under which her assailant had attempted to drag fer. Evidence of a ferrible struggle was shown. A copper-colored negro was seen sitting on the bridge near a short time before the tragedy occurred. On Monday bloodhounds were taken to the scene and the girls bloody hardkerchief was laid before them. They immediately cought, the trail and ran with full speed to the home of Joe Lark, when, on being admitted they rushed but the bedroom and sprang upon the bed.

THOUSANDS HOMELESS.

Fire Nearly Destroyed Town of Grandbourg, West Indies.

St. Louis, Island of Marie, Galantie, W. I. (via Haytien Cable) Aug. 20.—A fire which nearly destroyed Grandbourg, population about 15,000, the principal town of the island, broke out at 1 o'clock yesterday morning, in the residence of the commissary of police. The conflagration is supposed to have been of incendiary origin.

All the public buildings, except the church, prison and headquarters of the gendarmerie were destroyed, as were some 500 houses. The flames were extinguished at 9 o'clock in the morning.

From 3,000 to 4,000 persons are without shelter and suffering from the want of food.

out shelter and suffering from the want of food.

The Governor of Guadaloupe, Joseph Francois, has chartered the steamer Horton, which left that island yesterday with the first relief supplies of food and money. The loss sustained is estimated at over \$200,000.

CANADIAN ILL.

Lt.-Col. Gordon Reported to Be in Serious Condition.

Serious Condition.

Kingston, Aug. 20.—E. J. B. Pense is in receipt of a message reporting that Lt.Col. Gordon is dangerously ill in South Africa.

Col. Gordon was formerly district officer commanding at Montreal, and went to the front with the second contingent as special officer. He was to return with Strathcona's Horse, but Lord Kitchener detailed him as district effect of Ceres, Western Cape Colony. He has been in that district ever since, and had been doing good work.

TO VISIT FRANCE.

The Czar of Russia Accepts President Loubet's Invitation.

The Czar of Russia Accepts President Loubet's Invitation.

Paris, Aug. 20.—The Parisians were delighted to-day by the sunexpected announcement that the Czar of Russia has accepted President Loubet's invitation to witness the close of the grand manoeuvres at Rheims, and that he will land at Dunkirk after having previously witnessed, with President Loubet, a review of the northern squadron, which will welcome His Majesty to French waters.

The papers are already publishing elaborate reports of the official programme of the Czar's approaching visit, but the correspondent of the Associated Press learns from the foreign office here that these are purely imaginary, as the exact dates of the arrival and departure of the Czar are not known. The only thing certain is that he will arrive between the 15th and 20th of September; he will remain four or five days, and will join the Czarina, who will come by the land route to Compiegne (52 miles northeast of Paris.)

The officials of the foreign office intimate that the exact dates are withheld in order to prevent the plotting of anarchists and others.

CHARGE AGAINST STEWARD.

CHARGE AGAINST STEWARD.

Alleged to Have Tried to Bribe a U. S. Immigration Inspector,

New York, Aug. 20.-Ernesto Sapelli New York, Aug. 20.—Ernesto Sapelii, steward of the steamer LaGascoigne, was arraigned before Commissioner Alexander to-day on a charge of attempting to bribe an United States officer. The complaint was made by Wm. E. Junker, an immigration inspector, who said that Sapelli had offered him \$41 in United States movey and one ten frage piece to Sapelli had offered him \$41 in United States money and one ten franc piece to go into a scheme with him to admit alien passengers without having them first pass through the barge office. Sapelli was held in \$2,500 bail for examination to-morrow. It is alleged that the frauds date back six years, and that 10,000 immigrants have in this way entered the country.

Philadelphia, Pa., Aug. 20.—The fire which began yesterday at the works of the Atlantic Refining Company, at Point Breeze, is still buring fiercely, and all hope of saving the company's property is given un.

boje of saving the company given up.

An explosion sate this afternoon car-ried away the pumping machinery and nothing remains now apparently but to permit the conflagration to burn until the oil is all consumed. It is believed to-night that several lives are lost. In the explosion which occurred this atternoon, 15 persons were seriously injured.

BOER GENERAL BRINGS SUIT. Against British Consul at New Orlean for Alleged Slander,

New Orleans, Aug. 20.-Gen. Samue New Orleans, Aug. 20.—Gen. Samuel Pearson, a representative of the Boer overnment, at present in this city, orought suit in the city court to-day gainst British Consul Arthur G. Van-sittart, for \$20,000 damages for alleged slander. It is claimed by the Boer general that Van Sittart demanded his arrest and clarged by the with words. rest and charged him with complicity in the attempted blowing up of a British mule ship, which occurred early on the morning of the 9th of August.

life's a Sack Race

in the struggle for success. If sickness origi-nates in a dis-eased condition of the stomach (and most sick-ness does) there's a cure for it. Dr. Pierce's Golden Medical Discov-ery is not a cure-经验 ach and digestive and nutritive system.

MORE MEN ARE IDLE eel Managers Restart Clark Mills and Employees in Tube Works Quit,

Pittsburg, Aug. 20.—Following the rapid moves of yesterday on each side of the great steel strike, there was a lutto-day, and neither side took decisive according to the restriction.

day, and neither side took decisive acm. The contest seems to be setting
wan into a determined strengtle, in
sich neither side will acknowledge dett while there is hope left.
Joseph Bishop, the Ohio arbitrator,
peared here to-day, but both sides
imptly repudiated the suggestion that
other move for peace was being con-

onother move for peace was being considered.

The steel managers succeeded in starting the last idle mill at the Clark plant, and are evidently planning a series of extensions at every point where there is a chance of success. They will probably start the Star tin mills in this city and increase the force at the Lindsay and McCutcheon mills.

An interesting feature of the fight at the latter mill is contributed by the claim of the strikers that Mrs. Fred. Baugh, wife of the superintendent, is corting the strike breakers to and from the mill. She has always been very popular with the mill men and the picklets say they would rather face a regiment of soldiers than do anything improper in her presence. They say that in peace she nursed their families, and that they cannot interfere with her or in the men she escorts.

The steel managers are also arranging for more men for the Painter and Monessen mills.

The steel managers are also arranging for more men for the Painter and Monessen minis.

Virilt Preston, representing President Schwab, was here to-day, and conferred with leading officials of the companies federated in the steel corporation. Mr. Preston and the officials whom he met would not talk for publication.

The strikers met the movement to reopen, the mills with non-union men with the claim that it will simply be impossible to secure a sufficient number of skilled men to operate them. Their men, they declare, are standing firm and must be consulted with before the mills run. They say they have the situation well in hand and despite the alleged danger of the strike getting top heavy, continue their work of organization, with a view of eriphing more plants belonging to the corporation. They claim that Chicago will end by coming out, and that there is no danger at the Joliet men going back to work.

The tie-up of the Continental & Pennsylvanian tube plant of the National Tube Company in this city was completed during the night and early hours of morning. The shutting down of the two plants adds about 1.500 men to the force of the strikers. The success of the labor organizers in getting the men on the cheered the other strikers to a high pitch of enthusiasm. The officials of the National Tube Company would not discuss the strike by the attitude of their men, and that they hope that in time they will come to their senses and come back.

CANADIAN BRIEFS.

What the Strike Has Cost the C. P. R. Trackmen-Well Known Mer-chant Dead.

Montreal, Aug. 20.—The strike situation on the C. P. R. remains unchanged here. It is stated that the strike thus far has cost the trackmen. \$60,000 in assessments and \$500,000 in yages. Another call for \$60,000 will be made immediately. McGill . University,

Medical lectures at McGill University will open October 1st, two weeks later than usual, to allow for the completion of the new buildings.

Fire, which started in the sash and Fire, which started in the sash and door factory of D. Gagnon, on Chatham street, spread to the box factory of Holmes & Co., and the brass finishing shop of Albert Holmes, doing \$15,000 damage. The big patent medicine factory of Davis & Lawrence was Camaged to the extent of \$5,000. Loss fully covered,

VARIETIES EXHIBITED PROVE AN ATTRACTION

Gives Visitors an Idea of the Forest Wealth of the Dominion-The Russian Exhibit Is Outclassed.

Though before the Glasgow fair was pened the possibility of making a sucthat in a British community at any rate such can be done. As a matter of fact, while large numbers who visit the exor to study special sections, with a view to acquiring special information. If such

or to study special sections, with a view to acquiring special information. If such were not so the undertaking would not be the success it is, as the amusements are of a very tame order. Such, however, being the case, it is the most instructive exhibits which are attracting the most attention and are the most risited Among the latter class can undoubtedly be placed those of the various colonies represented. Not only are the displays made by them thoroughly illustrative of the regions they represent, but they are peculiarly attractive at the present time when British subjects the world over are keenly interested in obtaing all the practical information available on the resources of the Empire. Although all may be said to have made special efforts, Canada has gone further than the rest and practically gives all visitors to the exhibition an opportunity to make a minute study of every important industry of natural resource of the Dominion. The various sections into which her exhibits are divided are complete in themselves, and offer a great field for study, both to the business men of all classes and to the investing public, and there is little room for doubting all can be successed to the investing public, and there is little room for doubting field for study, both to the business men of all classes and to the investing pub-lic, and there is little room for doubting, that the effort made at Glasgow to at-tract attention to the natural resources of British North America will have, or at least should have, a marked effect on the future of export trade of the Do-minion.

One of the most interesting of the Caudian sections is that devoted to forestry. Ever since the days of its first-set that the dead may be reached. Mrs. Charles Hayden, of Metropolis, Ill., the trade was possible, it was recognized that the products of the forest would become one of its chief sources of wealth, and such has always been the case and is so to-day.

so to-day."
As to the exhibit itself, the first thing As to the exhibit itself, the first thing which strikes even the inexperienced passer-by is the extreme variety of timber it contains, and the remarkably effective way in which the small space at the disposal of the Canadian commission has been utilized so as to let everything be seen to advantage. This is in marked contrast to its local rival, the Russian timber exhibit, which, though (as at Paris) occupying five times as much ground, neither shows anything sike the variety of woods, nor owing to want of proper classification, affords scope for intelligent study.

No one acquainted in any way with the requirements of the British market can for an finstant doubt that Canada, with its practically undrawn on resources, is capable of supplying the British market with pulp wood, semi-manufactured articles, furniture, sawn lumber, etc. The question is whether the present existing export firms are capable of successfully competing with those of other countries, such as Sweden, Norway, Russia and Colombia were greatly extragerated. We neither saw not heard that the reports of the trouble between Venezuela and Colombia were greatly extragerated. We neither saw not heard that the reports of the trouble between Venezuela and Colombia were greatly extragerated. We neither saw not heard that the reports of the trouble between Venezuela and Colombia were greatly extragerated. We we neither saw not heard that the reports of the trouble between Venezuela and Colombia were greatly extragerated. We we neither saw not heard to apply the property of any trouble while in the harbor, said Capt. Smith. "I did not go ashore myself, but I know that every ermment had put a few soldiers on the trains running across the Isthmus, but the same of the same of the steamer Maracaibe from Venezuela. M. Reports of Trombia Said to Have Been Exaggerated.

New York, Aug. 20.—The officers and passengers of the steamship Origalsa, which arrived from Colon toffay. Said that the reports of the trouble between the passengers of the steamship Origalsa.

Times of the bear of the precidency of the preci

and it reflects great credit on all who contributed to making it what it is.

The practical question arises, however, if the wonderful effort made by the government of Canada and the Canadian commission at Glasgow will bring about the desired result, i. e., an increased knowledge of the natural and manufacturing resources of the Dominion among importers in the British Isles, and a consequent increase of the Canadian export trade in timber, wood pulp, semi-manufactured articles and furniture. The first of these questions can without hesitation factured articles and furniture. The first of these questions can without hesitation be answered in the affirmative. The second can only be solved by those in Canada who have the natural forest wealth of the country at their command. By studying the British market and catering to it they can undoubtedly secure the lion's share of the business at present being done. So, after all, the final success of this exhibit lies in their hands.

CAPSIZING OF STEAMER, Death List Will Probably Total Twenty two—Several Bodies Recovered,

Death List Will Probably Total Twentytwo—Several Bodies Recovered.

Paducah, Ky., Aug. 20.—The horror
of the steamer City of Golconda disasterist. Cottonwood Bar, four miles west of
Paducah, where the vessel capsized last
night, is just beginning to be fully comprehended by the people of Paducah, as
the bodies are brought into the city and
taken to the undertakers. It is certain
the death list wiln number seventeen, and
perhaps twenty-two. An official investigation will be made.

A. A. Peck, the pilot, says the engineer deserted his post, and that he could
not manage the boat with the engines
helpless. The engineer denies this, and
asserts that he remained at the throttle
until, the water was waist deep.

Frank Enders, one of the pussengers,
corroborated by several offices, declares
that the effort to land brought the side
of the boat around so that the wind
struck it with full force.

There had been almost a gale blowing
for ten minutes, and one man who could
not swim went to the pilot house and
begged the pilot to land. When he did
finally consent to land the hurricane
struck the boat as it swung around in
a position least able to resist it.

Early this moroing the work of searching for the remains began, the party
being led by Charles Graham, county
clerk, and Luther Graham, his brother,
whose sister was among the 6cad. Threebodies were recovered in the forenoon,
those of Miss Trixie Grimms, Miss Lucy
Barnett's face was badly accerated. This
afternoon the hodies of Miss Graham
and Mrs. Hogan and Lucille, her sexyear-old daughter, were recovered. The
position of the limbs and the expression
on the faces as well as scratches and
bruises indicated a fierce stringle whenthe persons were caught it the 'little
cabin.

The boat is being dismantled in order
that the dead may be reached. Mrs.

ably originated by natives who had seen surgical operations performed in mission hospitals. The kidnapping of children was invariably the first accusation brought against foreigners, and whenever riots occurred against 'white devils,' the instigators maliciously did away with a number of little unfortunates, and then held foreigners responsible for their disappearance. The Buddhist monks, however, in the Boxer movement, had devised a slight variation in this detail. They were very adept at hypnotism, and availed themselves of this power to impress the masses. They hypnotized young They were very adept at hypnotism, and availed themselves of this power to impress the masses. They hypnotized young boys, and then at night left them in a state of catalepsy in some thoroughfare. When a sufficient crowd had collected around these msensible creatures, the monks duly appeared and pointed out the actual proof of the evil doings of the foreigners. The crowd having been worked into a state of frenzy, the boy, apparently dead, would be restored to life by the monks (they said resuscitated), and the bystanders would be thus further convinced that, whatever deviltry foreigners might perpetrate, Buddhist monks had always the power to make things good.

THE A-1 ITALIAN SHIP

By Book Post

It would be difficult to find a book which more appeals to our national pride or more moves our deepest national feelings than Mr. Sanford Evanis. The Canadian Contingents' (I). It is an ambitious work, as, indeed, any work must be which attempts to cover the ground. But it is far more than a mere record of exents or the emotions of the hour. It reaches out and brings in "Juxtapositive" events and emotions and places them in their scheme of things, We may look back upon the entire transaction of Canada's part in a still dragging out war and view it from popular government or Imperial standpoints, and best of all we can follow in a triply continuous narrative the doings of our three contingents of soldier lads in the field. It recalls the scenes of daring deeds we are all familiar with and fills in the long series of marches and skirmishing we have ouly had vague outlines of. It brings home to us what the war meant to our boys and fills us with pride to the overflowing. It is indeed a soul-stirring story. Mr. Evans has wisely not at all embellished the narrative, but the plain record is enough. It is a realization of what we all dimly guessed at. As a history it must prove more and more valuable as time goes on. It is the only comprehensive record, As to the other side of these phases is thoughtfully and ably considered. It bears the earmarks of most careful consideration and of scholarly inference from the facts as they present themselves to him. Unfortunately, however, in my humble opinion the facts as they present themselves to him. Unfortunately, however, in my humble opinion the facts as they present themselves to him. would be difficult to find a book

it is indisputable that the whole appects of these phases is thoughtfully and ably more current consideration and of scholarly inference from the first as they present themselves to him Unfortunately, however, in my humble organical theorem of the contract of the contra

against my Electric Belt that medicine, which contains no vital tonic preperties, has not cured you? How can it give

you something that it has not? Is it any argument against m: Belt that a battery which tears and strains at your delicate nerves, or some crude, blistering, out-of-date electric belt, applied without sense or consideration of your trouble, has not cured you? Certainly not. My

Dr. McLAUGHLIN'S ELECTRIC BELT

has been invented and perfected for the cure of weakness in men caused by overwork, excesses and dissipation in earlier years, such as Nervous and Vital Weakness, Pains in Back and Limbs, Rheumatism, Kidney, Liver and Stomach Troubles, Varioocele and Drains of Vital Strength and all the effects of a wasted vital force. It is made with one special object in view, to renew the vital power in weak parts, and it does this as nothing else can do it. I have spent twenty years in learning to adapt it to these weaknesses in men, and I say honestly that it will not fall when my advice is followed; I care not what has failed to cure you. I am curing supposedly incurable cases daily.

I guarantee a cure if I say I can curs. I don't ask any one to take chances on my invention. It doesn't oost you anything if I fall.

If you are tired of treatments that fall, I want you to study my plan, and when you see how sensible it is come and try its SPECIAL NOTICE. If you have an old belt of any other make which has burn-git in and I will allow you one-half the price of mine for it. I give a free test to all who call. If you can't call I will send you my beautifully strated book with full information free. Call or write now. Don't delay.

WE PAY DUTY.

DR. M. E. MCLAUGHLIN, 106 1-2 Columbia St., Seattle, Wash.

INFLUENZA AND INSANITY.

The most terrible result of an influenza epidemic is the impulse which it gives to suicidal propensity among its victims. The most casual reader of the newspapers cannot have failed to note the number of coroner's inquests after an outbreak in which the jury's verdict attributes self-destruction to insanity resulting from influenza. The subject is discussed in a professional journal by an expert, Dr. G. A. Rorie, medical superintendent of the Cumberland and Westmoreland asylum, and his conclusions entirely bear out the popular view. Influenza was, as many of us remember only too well, very prevalent in the ten years following 1800, when the Russian variety of the disease established itself among us, and Dr. Rorie has found a great development of suicidal insanity which is clearly attributable to it. As many as sixty-eight insane cases were admitted to the fastitution under his own care in that period, in which infirenza was the visited predisposing or excluting cannot contain those cases are dealt with about which tone is eleverly witty and of quaint lightness.

The purpose of Winslow's "Natural Arithmetic" (3), as set forth by the author are: 1. To present the subjects in a spiral order, treating together the easier principles of the various topics and reserving the more difficult until the child has gained the power to apprehend them easily. 2. To make the work easy, the pupil being kept busy with a varied application of the principles already mastered instead of being too rapidly crowded forward into greater difficulties. 3. To give the subject variety and interest by insign the problems upon facts and principles gathered from the different studies and fruse correlating with the other branches, while adding to its clearness. 4. To develop genuine mathematical thought by promoting or ignificantly in the pupil's work and by derectoping fully each new principle before.

The week just closed has been a hard and exciting one for the employees at the Payne, and one that might have terminated in serious loss to the company. A forest fire which had been amouldering for a long time down in the gulch below the K. & S. track and last week threatened the terminal and office, spread up the hill on Tuesday and Wednesday and burned fiercely among the dry timber along the Payne hill. On Wednesday evening a brisk breeze from the west fanned the flames and for several hours fifty men worked like Trojans to save the transway and buildings from ruin. It was long after midnight before the fire passed the tramway and for many hours the company's improvements on the hillside would not have been considered a good risk. Some of the men terminated in serious loss to the company. A forest fire which had been smouldering for a long time down in the gulch below the K. & S. track and last week threatened the terminal and office, spread up the hill or Tuesday and Wednesday and burned fiercely among the dry timber along the Payne hill. On Wednesday evening a brisk breeze from the west fanned the flames and for several hours fifty men worked like Trojans to save the transvay and buildings from ruin. It was long after midnight before the fire passed the tramway and fouldings from any hours the company's improvements on the hillside would not have been considered a good risk. Some of the men at the mine worked 36 hours at a stretch before the danger was over and it was only by their untiring vigilance that the property was saved from complete ruin. Although the fires are still burning and the hose is continually applied about the office to keep it safe from lying embers, no further danger is apprehended either to the kose is continually applied about the office to keep it safe from lying embers, no further danger is apprehended either to the tramway or buildings.—Paystreak.

As briefly announced in these columns yesterday, the death occurred at S.E.

As briefly announced in these columns yesterday, the death occurred at 8:15 on Saturday evening of Arthur S. Shepherd. The sad event was not unexpected, says the Columbian, the wonder was that what appeared to be the inevitable was so long postponed, the sufferer having developed unexpected vitality. The deceased was a native of Cheltenham, England, in which place he was born in 1862. When two years of age he accompanied his parents to London, where he grew up, and in due course entered as clerk in the City of London Bank. His literary tastes led him subsequently to become a constant contributor to several of the leading London papers, and for some years he was an active worker in the cause of the Liberal party in England, and enjoyed the personal friendship of mady notable mea. He came to this country with his brother Samuel, who is now a resident of Central Park, and together they took up a ranch at Aldergrove. He soon, however, removed to Victoria, and just twelve years ago came to Westminster and entered the government agent's office, where he became assistant, a position he held ever since, and was very highly esteemed by his fellow clerks. He was a grent reader, and his knowledge of modern writers and of literature in general was unreservedly placed at the disposal of the Free Public Library, and he acted as secretary for the library commission from its inception until his recent illness compelled him to retire. He leaves a widow and two young sons, his eldest son and only daughter having predeceased him during the past few months.

Nature is the greatest healer after all; it is only necessary to provide the right conditions, Powley's Liquified Ozone is the greatest health-maker ever discovered. Here is one evidence of what it will do.

This is what Mr. Westwood, of the Wilkes, Westwood Co... wholesale dealer in fishing tackle, says about Ozone:

Gentlemen.—In answer to your enquiry regarding my experience with Ozone, would say that we have used it in our home off and on for the past three years. We have found it most useful for stomach trouble and a manaces for the visions ills that come up from time to time. We have used it in a from time to time. We have used it in a beneficial and would not be without it. (Signed) C. H. WESTWOOD, Sec. Treas. The Wilkes-Westwood Co., 92 Bay Street, Toronio.

We could give a multitude of such records.

Powley's Liquified Ozone will cost you 50c and \$1.00 a bottle. The druggists will have it. You should read our little pamphlet about it. Sent free: worth sending for.

The Ozone Co. of Toronto, Limited. The Liquid Ozone Co., Chicago, U.S.A.

Fred White, alias Walker, who was captured in Seattle and brought-back by Detective Wylie, was sentenced to two years' imprisonement on each of four charges, to which he pleaded guilty, making a term of eight years in all. The offences charged were burglaries committed in Pyke's store, on Hastings street; Chapman's, on Westminster avenue; Woods's stationery store, and Bowser's residence. In the case of the men arrested for conducting, looking on and participating in a gambling game at 508 Hastings street, the bail of \$50 was forfeited in each case. A sailor who had recently signed articles to serve on the Empress of Japan, was sentenced to 00 days in jail for absenting himself from duty.

The ore contains 70 per cent, from and the percentage of slige and sulphur was so small as to not affect in

in the cut above), built to distribute the advertising literature of the World's Dispensary Medical Association, proprietors and manufacturers of Dr. Pierce's medicines. In many a town and village Dr. Pierce's automobile has been the pioneer horseless vehicle. These wagons, sent to every important section of the country, are doing more than merely advertise Dr. Pierce's Remedies—they are pioneers of progress, heralds of the automobile age.

And this is in keeping with the record made by Dr. Pierce and his famous preparations, which have always kept in the front on their merits. Dr. Pierce's Golden Medical Discovery is still the leading medicine for disorders and diseases of the stomach and digestive and nutritive systems, for the purifying of the blood and healing of weak lungs.

Women place Dr. Pierce's Favorite Prescription in the front of all put-up medicines specially designed for women's use. The wide benefits this medicine has brought to women have been well summed up in the words "I makes weak women strong and sick women well."

The reputation of Dr. Pierce's Pleasant Pellets as a safe and effective laxative for family use is international.

It may be asserted without fear of contradiction that no other firm or company engaged in the vending of put-up medicines can rank with the World's Dispensary Medical Association, either in the opinion of the medical profession or of the intelligent public. The Invalids' Hotel and Surgical Institute, which is connected with the "World's Dispensary," is alone sufficient to prove this supremacy. Here is a great modern hospital, always filled with patients, where every day successful operations are performed on men and women whose diseases demand the aid of surgery. No hospital in Buffalo is better equipped, with respect to its modern appliances, or the surgical ability of its staff. Dr. R. V. Pierce, the chief consulting physician of this great institution, has associated with himself nearly a score of physicians of this great institution, has associated with himself n

went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off se long that it was almost bloody flux. I asked nim if he had tried Chamberlain's Colic, Choiera and Diarrhoea Remedy and he said, 'No.' I went home and brought bim my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured.' About twenty butterfiles and nearly six hundred moths are supplied by Wicker Sege Fen, in Cambridgeshire, England, but only a few of the rarer and more valuable specimens are sought after by the entomelogists. Their value, from a monetary point of view, is somewhat difficult to gauge; for instance, a searce and inconspicious brows moth, called Hydrilla palustris, which is only taken at long intervals, several year intervening, is worth \$10 to \$15, while a swallow tail butterfly, although found no where eise in England, is only worth but ten cents. A good specimen of the large copper butterfly is worth from \$35° to \$40 but this butterfly is now extinct. —Pearson's Magazine.

WHAT "FOOT ELM" DOES

Foot Elm cases aching feet, rests tired feet, takes the sting out of a corn and the burn out of a bunion, prevents charing, and blistering of the feet and preserves the shoe leather. Den't try an imitation. It may injure you feet and ruin your shoes.

Foot Elm is 25c, a box at all druggists or sent by mail. Stott & Jury, Bowmanyille, Ont.

FRENCH MINISTER AND SUBLIME PORTE

M. CONSTANS REFUSES TO TREAT WITH SULTAN

Abdul, as Usual, Will Not Keep Promises Made to the French Ambassador-All Over Quays.

(Associated Press.) (Associated Press.)

Constantinople, Aug. 21.—The French
Ambassador, M. Constans, has notified
the Suitan's first secretary that all diplomatic relations between France and
Turkey are broken off, and the ambassador has informed bis government to
this effect,
M. Constans communicated direct with
the Suitan because the latest pegulia-

the Sultan because the latest negotia-tions were transacted with the Sultan

tions were transacted with the Sultan personally.

The ambassador justified his action on the ground that the Sultan broke his direct, personal promise given to M. Constans, at an audience in the Yildiz palace on Thursday regarding the purchase of the quays and the settlement of the disputed French claims. The foreign minister also gave formal assurance that the agreement would be carried out, so, in view of this double breach of faith, M. Constans holds that it is impossible for France to continue diplomatic relations with Turkey.

Offered to Raise Loan,

Paris, Aug. 21.—It was announced in a dispatch from Constantinople, dated Sunday, that the Sultan had agreed to raise a loan of 40,000,000 francs with which to purchase the quays constructed by a French company, on the understanding that eventually they would be taken up by the Turkish government. The French ambassador at Constantinople has been pressing the claims of the French company for some time past, and threatens to break off diplomatic relations with Turkey, unless the Sultan promises to refund by noon, August 19th.

How Matters Stand. Paris, Aug. 21.-It was announced i

How Matters Stand, Paris, Aug. 21.—A high official of the foreign office to-day informed the corespondent of the Associated Press that the exact situation at Constantinople is

The Sultan at the last audience which he granted to M. Constans, the French ambassador, agreed to send the latter the same or the following day a document giving complete satisfaction to France regarding the claims of French France regarding the claims of French citizens in the matter of the quays in accordance with the terms arranged between the Sultan and M. Constans verbally. Instead of doing this, the Sultan waited until festerday, when he sent M. Constans a document in which the terms differed essentially from those arranged at the audience, thereupon M. Constans declined to negotiate any further or, to hold other accordance with the constant of the constant

M. Constans and the Forte are broken off, but France and Turkey are still in diplomatic relations through the Turkish ambassador at Paris. "If the Sultan does not keep the promises which be made at the last

ca the part of France has yet been de-cided upon. The stories in the papers to the effect that French warships are under orders to be in readiness to pro-teed to the Bosphorus have no founda-tion in fact. Such a measure might, of-course, become necessary, but that eventuality has not yet been considered by the French government."

CONFLICT PROBABLE.

Clash Between Baigarians and Ottoma Troops Now Seems Likely,

(Associated Press.)

(Associated Press.)
Constantinople, Aug. 21.—It is reported that the Bulgarian forces on the frontier at Secatash have been reinforced, and it is feared that miless the two forces of Ottoman troops, occupying Klasobair, disputed territory across the Bulgarian Irontier, promptly evacuate, the consequences will be serious.

The Last of Conciliation Board Leave Montreal,

Vancouver, Aug. 21.—A Montreal special dispatch says the last of the conciliation committee which has had the trackmen's strike in hand has left Montreal, and it is likely the strike will drag slong for some time. (Special to the Times) ong for some time. E. S. Clouston, general manager of e Bank of Montreal, passed through to

factories using cold as a fifel are utilizing a very small amount at present, for which an ample provision has been already made. Steamers on the Sound and in British Columbia are being withheld, some of them with full cargoes already on board, awaiting the final settlement with the labor legues.

"The last reports from Australia and Great Britain report coal freights uncleanaged, but rewer vessels being offered. This naturally—lutimates that bottom rates on coal have been reached, in fact, when coal freights are cutoted at about los, 6d, from Swansea, Wales, and His. 6c, from Australia, N. S. W., the natural inference would be that bottom rates not above reached, as a little less than these figures would induce ships to come to be the contract of the cont

RESOURCES OF MANCHURIA.

miles, extending from the Sungari rivers to New Chwang, the railroad passes through a level, well watered region, densiey crowded with population, and, as far as the eye can see, under the highest state of cultivation. In our journey through it we scarcely found an acretal that Laotung alone has a population of as much as 12,000,000, and that the total cannot be much less than 20,000,000. These, however, are largely Chinese, it is the scarce in arms having, as is often the case, led to their ultimate decay; for ever since the establishment of the Manchu dynasty at Pekin, in 1644, they have been drawn in large numbers to Pekin and to the garrisons stationed in all the principal Chinese towns. Here, living a comparatively idle life, and depending largely upon pensions from the general government for their support, they have been enervated; while the quality of those left behind in Manchuria has depreciated in character. The Chinese, on the other hand, have gradually invaded Manchurial ill they carry on nearly all of its business, and swarm in all the centres of population. Gradually, they are bringing under cultivation the vast areas of fertile land which under the Manchus lad been devoted to jūsture or left to Film to waste.—The Monthly Review of Reviews.

THE SHORT LIVED YACHT.

Another instance of the rapid passing of a racing yacht's usefulness is that of the grand old Defender, the 1895 cup racer. It cost fully \$100,000 to build her—not to run her; just to put her afloat ready for racing. Those who designed the yacht thought that a bronze hull with aluminum topsides would slide through the water with greater celerity than any other combination of metals that could be devised for a hull. They so informed the syndicate that ordered her. But, they added, aluminum and bronze make a poor combination, and in course of time the aluminum will rot where it joins the bronze, and Defender will be useless. But what mattered that? She was to be built to defend the cup; after she had defended it she might rot or not as she pleased.—La wrence Perry in Frank Leslie's Popular Monthly for August.
